BUREAU OF SUGAR EXPERIMENT STATIONS

BRISBANE

THE CANE GROWERS' QUARTERLY BULLETIN

ISSUED BY DIRECTION OF THE
SUGAR EXPERIMENT STATIONS
BOARD

VOLUMES XV AND XVI

GENERAL INDEX

VOLUME XV

Contents

	Page
The Sugar Experiment Stations Acts Amendment Act 1951	3
Field Day at Bundaberg	5
Pre-emergence and Post-emergence Control of Weeds by Chemical Sprays—by L. G. Vallance	9
Warfarin—A New Rat Poison—by R. W. Mungomery	13
The Bureau Expedition to New Guinea	14
Rolleston Cane Harvesting Machine—by C. G. Story	15
The Effect of Mixing Fertilizer with Benzene Hexachloride for Cane Grub Control—by G. Wilson	18
Beetle Emergence in the Highleigh District	21
A Note on Varietal Susceptibility to Yellow Spot—by J. H. Buzacott	23
The Germination of Q.50—by Norman J. King	24
Frenchi Cane Grub: Control of the Third Stage in Plant Cane by Means of B.H.C.—by G. Wilson	25
The Increasing Importance of New Cane Varieties to Our Industry—by Norman J. King	28
An Outline of Disease Control in the Mulgrave Area—by P. Volp	30
Bureau Expedition to New Guinea	32
The 1951 Cane Collecting Expedition to New Guinea—by J. H. Buzacott and C. G. Hughes—	
Foreword	35
Introduction	36

Previous Cane Collections in New Guinea 36
The Itinerary of the 1951 Expedition 43
The Role of Cane in the Lives of the Highland Natives 54
Quarantine Measures 64
The Canes Collected 66
Acknowledgements 69
Forecast of Approved Varieties for 1952 73
The Conference of Cane Pest and Disease Control Boards —by R. W. Mungomery 73
A Warning Against Planting S.J.4 in the Inkerman, Kalamia and Pioneer Mill Areas—by R. W. Mungomery 76
Chemical Weed Control—by H. G. Knust 77
Farm Made Boom Sprays in Southern Queensland—by H. G. Knust 80
Some Notes on Home Made Boom Sprays in North Queensland—by G. Bates 83
Maryborough-Bauple District Quarantine Against Chlorotic Streak Disease—by R. W. Mungomery 89
Chlorotic Streak Disease in the Maryborough Area—by N. McD. Smith 90
Pineapple Disease in the Mackay District—by C. G. Story 92
The Circular Saw for Cutting Plants—by E. V. Humphry 95
Machine for Pushing Cane Breaks—by S. O. Skinner 100
Approved Sugar Cane Varieties for 1952 Planting 102
Approved Fodder Canes 104
Q.50 in North Queensland—by E. A. Pembroke 105
The Value of Sawdust as a Soil Mulch 108
Impressions of Pindar in the Bundaberg Area—by O. W. D. Myatt 109
Varietal Trials—1951 Season 113
Bulletin on Weedicides 127
Soil Fertility Investigations—Results of the 1951 Season —by L. G. Vallance 128

New Bureau Glasshouses 133
Wasted Plant Foods—by Norman J. King 134
Procedure for Taking Soil Samples 136
The Stick Planting Method—by N. G. Graff 137
Velvet Beans in Maryborough and Moreton Areas—by N. McD. Smith 139
Flood Erosion Damage, Mackay District, 1951—by C. G. Story 141
Agriculture 3,500 Years Ago 145
Disease Resistance Sub-station 146

VOLUME XVI

Contents

Sugar in the Australian Economy—by Norman J. King 3
Inspectors and Honorary Inspectors 6
Sclerospora Disease—by D. R. L. Steindl and N. McD. Smith 7
Conference of Queensland Sugar Technologists 9
The Importance of Correct Fertilizing—by L. G. Vallance 11
Testing Sugar Cane Varieties for Resistance to Leaf Scald—by C. G. Hughes 12
Chemical Control of Weeds on an Irrigated Farm at Bundaberg—by E. H. Churchward 16
Leaf Scald at Moreton—by C. G. Hughes 19
Velvet Beans—by Norman J. King 20
The Eradication of Downy Mildew in the Bundaberg Area—by N. Courtice 22
Supplies of Velvet Bean Seed 24
Some Observations on Frost Injury to Sugar Cane—by N. McD. Smith 25
A Bulletin on Weedicides 33

Field Day at Meringa 34
Diseases of Cane in New Guinea—by C. G. Hughes 39
The Sugar Cane Varieties of New Guinea—by J. H. Buzacott 43
The Effects of BHC in Pest Control—by G. Wilson 44
Farm Machinery Day—Nambour 47
The New Variety—Q.57 48
Fertilizing and Other Soil Practices—by L. G. Vallance 50
Forecast of Approved Varieties for 1953 52
Are We Depending Too Much on New Cane Varieties.—by Norman J. King 53
Meeting of Sugar Experiment Stations Board 55
The Pathology Glasshouses—by C. G. Hughes 56
Bound Copies of the Quarterly Bulletin 57
Sugar at the Royal National Show 58
The Overall Disease Position—by Norman J. King 60
The End of Downy Mildew Disease? 62
Chemical Sprays for Weed Control—by L. G. Vallance 63
Ratoon Stunting Disease—by D. R. L. Steindl and C. G. Hughes 79
Poor Patches in Cane Fields 95
Expansion of the Sugar Industry in Queensland—by Norman J. King 96
Farm Built Equipment—by L. G. Vallance 99
The Effect of Krilium on Some Sugar Cane Soils—by L. G. Vallance and K. C. Leverington 117
The Value of Molasses—by Norman J. King 120
The Burning Question—by J. H. Buzacott 122
Cultures for Green Manure Crops 123
Trends in B.H.C. Usage for Grub Control—by R. W. Mungomery 124
Lower Burdekin Sugar Experiment Station—by G. A. Christie 126
The Poverty of Some New Lands 129
List of Varieties of Sugar Cane Approved for Planting, 1953 130

Approved Fodder Canes 132
How the Other Half Works 132
Soil Fertility Investigations—Results of the 1952 Season —by L. G. Vallance 135
Varietal Trials—1952 Season—by H. C. Haskew 144
A Mercurial Dipping Plant—by G. Bates 155
Blind Canes—by J. H. Buzacott 157
Types of Badila—by J. H. Buzacott 159
Soil Conditioners and Other Modern Chemicals—by L. G. Vallance 166
Velvet Bean Seed Supplies 168
